

# LLM Content Optimization System™

Win in a world where ChatGPT is the new Google.

A turn-key, 90-day fixed-price program designed to re-architect your content engine for the AI-first buyer journey. We get content surfaced, cited, and trusted in tools like ChatGPT, Perplexity, and Claude, because that's where buying decisions are made now.

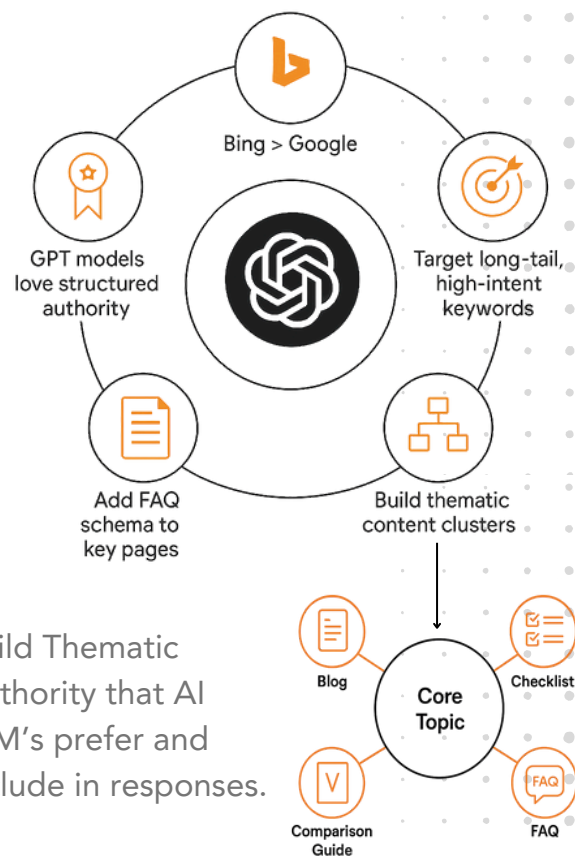

## HOW WE HELP:

✓ **Precision Targeting for AI Discovery:**  
We map high-intent, long-tail buyer questions and align your content strategy to match the way LLMs interpret and surface answers. Forget "CRM software." Think "best CRM for remote sales reps managing enterprise accounts."

✓ **Structured Content That LLMs Love:**  
We rewire your site and core pages with the schemas, signals, and structure that increase visibility inside AI-generated answers. FAQ schema. Hub-and-spoke topic clusters. Structured authority from trusted domains.

✓ **Thematic Authority That Gets You Cited:**  
LLMs validate authority in the context of the broader web. By deploying a unique set of IA taxonomies and link strategies both on and off site, we position your content as *the answer* for LLM inclusion.

## BEYOND SEO

## WHY WORK WITH US?

**Category Creation Experience**  
We've built brands that define and dominate new spaces.

**Fixed-Price**  
Zero Scope Creep. 90 days. \$25k. Full execution.

**Strategic Depth, Tactical Speed**  
This isn't SEO 2.0. It's positioning for a new ecosystem.
